**Tuesday, 1 November**

**1-2pm, Room 204 Engineering Building**

Dr Cathy Dalton

Interactive Sensory Environments for Attentional Restoration

Cathy is a trained architect, with extensive practice in Universal Design and healthcare design, and an ongoing interest in environment and wellbeing. She was the first person to gain a PhD in Architecture from UCC. She is the former director and Founding partner of Dalton + O'Donnell Architects, as well as a choral singer and all- round nerd.

Her post-doctoral research is supported by funding from the charity RESPECT and the People Programme (Marie Curie Actions) of the European Union's Seventh Framework Programme on Assistive Technology for People with Intellectual Disabilities/Autism.

Supervisors: Prof Lizbeth Goodman, Prof Greg Maguire, and Prof Frank Lyons
